

2017-2020 Priorities

In 2017 we changed our process and have long term rather than yearly goals for the ICC. These are our goals for the next several years.

1. Assess the campus climate through the national surveys and other measures.
2. Review and update university wide communications about inclusion, diversity, global engagement and equity.
3. Become more familiar with student and colleague needs regarding intercultural knowledge and skill development.
4. Deepen professional development efforts around cross-cultural engagement.
