Graduation Planning

Major Requirements

In the chart below, look up a top major of interest for you in the Academic Catalog. Write in all of the requirements for the major in the left column. Look at the description of each requirement. If a prerequisite is required, write down the prerequisite(s) in the 2nd column. If a corequisite is required, write down the corequisite in the 3rd column. Classes can have both prerequisites and corequisites. Leave blank or write "none" if a class has neither a prerequisite nor a corequisite.

If you are considering a second major, create a second chart.

Major Requirement	**Prerequisite**	**Corequisite**

Minor Requirements

If you are considering any minors, also complete the chart(s) below. Be sure to write down all requirements, even if some might double-count with a major requirement. Write in all of the requirements for the major in the left column. Look at the description of each requirement. If a prerequisite is required, write down the prerequisite(s) in the 2nd column. If a corequisite is required, write down the corequisite in the 3rd column. Classes can have both prerequisites and corequisites. Leave blank or write "none" if a class has neither a prerequisite nor a corequisite.

Keep in mind that some minors are very flexible. You may have to look up the list of Courses in the Academic Catalog to see what your options are.

Minor #1 Requirement	**Prerequisite**	**Corequisite**

Minor #2 Requirement	**Prerequisite**	**Corequisite**

Minor #3 Requirement	**Prerequisite**	**Corequisite**
