

Undecided but Exploring Love School of Business

This student was pre-enrolled in ENG 1100 and ELN 1010. As an undecided business major, they opted to enroll in ECO 1000: Principles of Economics. This class satisfies both a major requirement for all Love School of Business majors and a Society requirement. Additionally, this student enrolled in Computer Science 1300: Intro to Compute Science (Science non-lab), History 1220: Contested Democracy, and US from 1865 (Civilization).

Notice that the student is not enrolled in a First-Year Foundations Math class in their first semester. Also notice that the student opted to avoid 8:00 AM classes but took evening classes instead. It is common for first-year students to have either an 8:00 AM class or a later afternoon or evening class; if not both.
