

First-Year Only Sections: Fall 2024

The courses listed below are reserved exclusively for incoming first-year students. The classes listed here are not the full catalog of courses available to you. This list is just those restricted to new students in their first semester of college Elon. Additionally, some classes are high-demand topics with some sections reserved for FY students. Other sections of the course may be available that are open to students from any grade. Please use OnTrack and the Course Lists by category to access the course description for each topic.

Course offerings are subject to change.
