9. Teacher's aide/assistant in a PUBLIC sc...	3.3
10. Other - Associate Teacher	3.3
11. Full-time teacher in a PRIVATE school	3.3

Where are they teaching?

What do they say about Elon?

"I truly do have other teachers ask, "Did Elon prepare you?" I confidently say yes. I don't say that easily. I know not every teacher program prepares like Elon. I am really so blessed and grateful to have had such a great undergrad experience between the other student teachers, the teachers, just everything. It had great leadership and really inspired me to continue to grow as a teacher." - Elementary Education completer

"One thing that Elon did a fantastic job in preparing me for was how to become a 21st century teacher and how to also think about the layers and the implications of teaching, and to think about education as a structure and the importance of that structure and the impact that it can have. I find that I have a very developed lens about things in conjunction with technology and race and thinking about all the diversity that flows into our school. I think that is unique to Elon's education program and something that made me a much more intentional educator in the work that we're doing, especially working with a diverse student population. My entire heart goes out to the School of Ed. I'm very proud to be able to call my education an Elon Education. I'm so proud of my roots because I don't think I would have the stamina and that ability – that lens if not for Elon and for our School of Education." - Elementary Education completer

"I have nothing but good things to say about the School of Education. I had great mentors. You all instilled a passion for education in me. I wouldn't be where I am without you, so I have nothing but good things to say about the School of Education and everything I learned and everything I experienced." - Early Childhood Education completer
