Faculty Director: Sandy Marshall, dmarshall8@elon.edu

Community Director: Mariann King mking36@elon.edu

Resident Assistant: Liz Moores emoores@elon.edu

Graduate Apprentice: Lucy Sneader

Welcome to the International Living and Learning Community:

- This intentional community in the Global Neighborhood brings together students with international backgrounds and experiences along with U.S. students who are interested in exploring cultures, issues, and opportunities around the world.
- This unique community fosters cross-cultural appreciation, intercultural competency, respect for diversity, curiosity, and awareness about international trends and issues.
- It is a multicultural environment that values difference and shares Elon University's priority of internationalizing the campus through activities such as study abroad, international exchanges, and language learning.

Overall Living Learning Communities Goals:

1. Living learning communities provide students with a sense of belonging in a community of their peers united by a common interest.
2. LLCs support students' intellectual, personal, and social growth by providing them with opportunities to learn in a collaborative, engaging environment.

- 
3. Living Learning Communities work to integrate students' academic social, and residential experiences, providing a seamless learning environment in which students develop "connected knowing" outside of the classroom on disciplinary and interdisciplinary projects.
 4. Living Learning Communities challenge students to test their skills/knowledge through applications, experiences, reflection, and synthesis outside the classroom. Examples of this include intellectual discussions, trips, projects, speakers, and events.
 5. Living Learning Communities provide opportunities for faculty and staff to engage in university service and student mentoring in intentional mentorship with students outside of the classroom in their field of interest or discipline.

Overall International LLC Goals:

- To bring together students interested in international experiences, issues, and interactions.
- To connect these students with faculty, staff, and students who also share your interests and who will work to build relationships around areas of mutual concern.
- To create a community that serves as a social network and as an intellectual resource, a community that will help students succeed in and outside the classroom.
- To take advantage of the wealth of activities happening across campus, such as lectures, concerts, performances, speakers, and more, and to connect those activities with international themes and trends, encouraging discussions and reflections.
- To learn from the cultural differences and diversity among the residents.
- To integrate classroom themes with residential conversations and planned programming in an intentional, learning-centered community.
- To continuously improve our community by monitoring activities and gaining your feedback. We want to support your personal, social, intellectual, and emotional growth.

Expectations and Activities:

You were carefully selected to be part of the ILLC so please accept your placement with us as an honor. The ILLC offers opportunities to learn about the rest of the world through:

- Interactions with your fellow residents, cultural events, speakers, concerts, trips, and other activities, within the Global Neighborhood and beyond.
 - In addition to the schedule below, we will be building a schedule of activities for this year. Some activities emphasize community-building. Others will help us understand international issues, arts, and trends.
- Many programs should help us develop social networks and build relationships and some will be just plain fun.
 - **Members of the International LLC are expected to attend 2 LLC events each month in the fall and spring semesters.** Take advantage of them. As former Elon President Leo Lambert used to say during First-year Convocation, "You have been invited to a great banquet, don't make yourself a bologna sandwich."

Service Activities:

Elon University is all about preparing students to lead a life of service to others. As such, the International LLC will work together to find service opportunities that align with our goals, objectives, and common interests for the common good.

Assessment and Planning:

Throughout the year, we will solicit feedback on ILLC events and activities. We will do this primarily through short written surveys and informal small-group discussions. We are most interested in learning how participating in the ILLC activities impacts your learning and living experiences. These assessments will also be crucial in informing future planning for the ILLC.

Leadership Opportunities in International LLC:

Throughout the year, you are invited to assume a **leadership role** in building our community. Speak with the **Faculty in Residence, Dr. Jessica Gisclair**, if you would like to step up to lead any event listed below or if you have other ideas!

- Coordinate our **two traditions**: International Cheese Festival (fall) and International Chocolate Festival (spring) + Kahoot! in Lakeside Dining.
- Coordinate our **off-campus events**:
 - Fall - Forest Walk at Dinner Bell Farms; Ice Skating in Hillsborough
 - Winter – Friday Movie Night at Alamance Crossing
 - Spring – Cosmic Bowling at Buffalo Lanes in Mebane; Saturday Shopping at Tanger Outlet in Mebane
- Coordinate our three **co-sponsored events** with the Global Education Center: International Coffee Hour; Academic Advising; and Student Professional Development.
