

Hello Scholars,

We look forward to seeing you at our Saturday program this weekend-Saturday, February 19th. This program is for all scholars and Pi and Omicron families.

Omicron and Pi Scholars- Please alert your families: On Saturday, families will complete the Federal Student Aid Estimator- an online questionnaire that provides an estimate of expected family financial contribution to college.

In order to receive the most accurate estimate, please bring along the following documents/information: Federal tax information or tax returns, including W-2 information, for yourself and for your spouse if you are married; information on savings, investments, and business and farm assets; the current amount you have in cash, savings, and checking accounts (a recent bank statement will be helpful). Each family will complete their own Aid Estimator online (with the guidance of a member of Elon University's financial planning department) so information will be confidential.

Pi Scholars- Your families will be walking to the University library for a tour and library card as part of their programming.

If you are signed up for Spring SAT Prep this will take place following the Saturday program (lunch included) until 4/4:30 pm. Mr. Pickett will send a reminder email to the students involved.

CAT Mentoring:

All scholars should have heard from their CAT Mentor. Please get your February meeting scheduled ASAP. As a reminder, scholars must meet with their CAT Mentor three times this semester.

Academic Coaching:

We have a coach who is available to assist scholars in the subjects of English and writing. If you would like a coach in either of these areas, please contact Mr. Pickett.

Transition Retreat for Xi Scholars (This is a required event for senior scholars): July 29th-31st. More information to come!

In preparation for our residential summer program (June 12-July 1, 2022) we encourage scholars to get their COVID vaccine and booster.

Elon University Cultural Events:

Black Solidarity Dance Concert

Feb. 24-26: Virtual performance available each night at elonperformingarts.com at 7:30 p.m.

A celebration of black history through dance, music and storytelling features performances by Elon students and works from Elon faculty as well as local artists
