UNIVERSITY

Student Achievement and Success 2022-2023

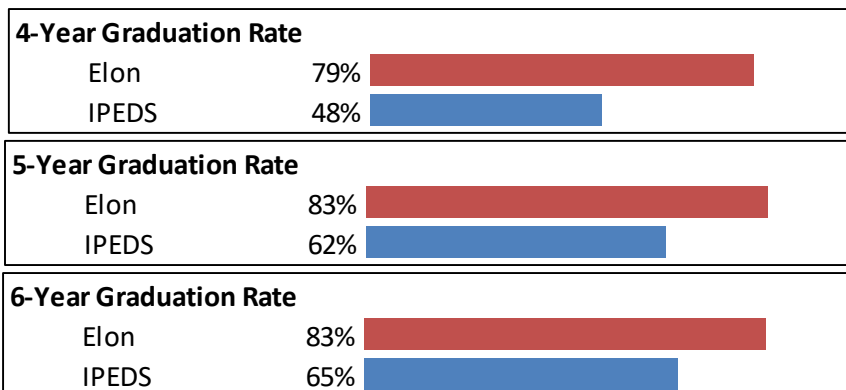

To fulfill its mission, Elon University monitors student achievement and success in multiple ways during the time students are enrolled and once they have graduated. Examples of Elon’s goals for student achievement and the success of students in achieving those goals are provided below. These include first- to second-year retention, persistence to degree (graduation rate), participation in selected high impact practices, outcomes for licensing examinations, and students’ success in securing jobs or continuing their education after graduation. To benchmark student success in achieving the goals, Elon University uses information from the sources identified below.

Persistence to Degree (Graduation Rate)

Goal: Elon’s four, five, and six year graduation rates will exceed the median for 2022 Basic Carnegie Classifications that includes Doctoral very high research, Doctoral high research, and Doctoral/Professional Universities (source: IPEDS)

In accordance with the Boldly Elon Strategic Plan, the University is striving for a 4-year graduation rate of 85% and a 6-year graduation rate of 90%.

NOTE: Undergraduate retention and graduation rates reported based upon reported IPEDS guidelines for establishing cohorts (i.e., full-time, first-time bachelor’s degree students). These rates use the same methodology and correspond with rates reported to SACSCOC, Common Data Set, and various college guides/rankings.

Elon and IPEDS figures are for 2016 entering first-year students
