HOSPITAL INDEMNITY INSURANCE

Benefit Summary

What is Hospital Indemnity Insurance?

This coverage pays you benefits for hospitalizations associated with covered accidents or sicknesses. Carrying this insurance helps protect you and your family from the financial challenges that can come from a hospitalization.

Use your benefits any way you like.

Benefit proceeds can be used however you like, whether it's toward out-of-pocket medical expenses, your mortgage or student loans. It's up to you.

Who can be covered?

The coverage offered by your Employer allows you to insure yourself, and your spouse and children. Note that you may only cover other family members if you are insured by this coverage yourself.

5.4 day

The average hospital stay¹

\$20,292

Average total cost of treatment for pneumonia with major complications & one or more additional conditions²

More than

\$4,500

The average a new mother with insurance will pay for labor and delivery.³

What's the difference between health insurance & Hospital Indemnity Insurance?

Health insurance covers certain medical expenses and pays your provider directly, but may leave you responsible for some costs. The amount paid depends on your coverage, the type of care and whether you've hit your out-of-pocket maximum.

Hospital Indemnity Insurance is supplemental coverage that complements your health insurance and can help cover your out-of-pocket expenses. The benefit amount you receive is based on the type of hospitalization, is paid directly to you and can be used however you like.

Let's say you carry both health insurance and Hospital Indemnity Insurance, and you are admitted and confined to the hospital with pneumonia. Your health insurance will pay the treating providers for some or all of your medical expenses. Your Hospital Indemnity Insurance will pay you directly for the covered hospitalization benefits. Depending on your coverage, this could include an ambulance ride, admittance to the emergency room, x-rays and/or a daily hospitalization benefit. The Hospital Indemnity benefits paid could then be used any way you like, such as to cover out-of-pocket medical expenses, replace lost income or pay your mortgage.

Coverage highlights:

- No health questions asked
- Affordable coverage that fills gaps many core health plans do not cover
- A range of HSA-compatible benefits*
- Convenient payroll deductions
- Simplified claims-filing with dedicated support
- If you leave your Employer, you may be able to take your coverage with you at the same rate

TOP 5 HOSPITALIZATIONS

1. Live birth
2. Blood poisoning (septicemia)
3. Osteoarthritis
4. Heart failure
5. Chronic obstructive pulmonary disease & bronchitis⁴

*Not all benefits are HSA-compatible. This is not legal or tax advice. Please contact a tax professional with any HSA-related tax questions.

How does it work?

When you carry Hospital Indemnity Insurance and have a covered hospitalization, you are paid a total cash benefit based on the benefit amounts and limitations listed for each covered benefit and/or treatment. Check your benefit schedule for more details about what is covered under your group's plan.

BENEFIT SNAPSHOT: SOFIA'S BIRTH STORY

Things had been going well with Sofia's pregnancy, until one night during her eighth month when she unexpectedly went into labor. After being rushed to the hospital, Sofia delivered her baby boy via an emergency cesarean; he was quickly rushed to the NICU. Four days later, she was discharged and a week after that, her son joined her at home. Fortunately, Sofia carried Hospital Indemnity coverage through her Employer, which helped offset their medical expenses and her time away from work.

Sofia's coverage paid these benefits:

Hospital admission - Sofia:	\$1,000.00
Daily confinement – Sofia (4 days):	\$800.00
Daily NICU confinement – Baby (11 days):	\$2,200.00
Total benefits paid:	\$4,000.00

BENEFIT SNAPSHOT: WILL'S PNEUMONIA

Will had never faced any serious health problems and liked to think it was because of how well he took care of himself. Then one year, during a particularly bad flu season, Will found himself unable to kick a nasty bug. Several days into a fever, when he couldn't catch his breath, Will was taken to the emergency room by ambulance, where he was evaluated and admitted for pneumonia. Five days later, he was able to go home. Will used the benefits paid by his Hospital Indemnity Insurance to help cover his out-of-pocket medical expenses and time away from work.

Will's coverage paid these benefits:

Hospital admission:	\$1,000.00
Daily hospital confinement:	\$1,000.00
Total benefits paid:	\$2,000.00

Exclusions & limitations

This is not a complete disclosure of plan qualifications and limitations. Benefits and riders may vary by state and may not be available in all states. In addition to any benefit-specific exclusion, benefits will not be paid for any loss which, directly or indirectly, in whole or in part, is caused by or results from any of the following unless coverage is specifically provided for by name in insurance certificate:

- Intentionally self-inflicted injury, suicide, or any attempt or threat while sane or insane;
- Participating in war or any act of war whether declared or undeclared;
- Commission or attempt to commit a felony;
- Commission of or active participation in a riot, insurrection, or terrorist activity;
- Dental services or treatment except as a result of an injury;
- Flight in, boarding, or alighting from an aircraft or any craft designed to fly above the earth's surface, including any travel beyond the earth's atmosphere except a fare-paying passenger on a regularly scheduled commercial or charter airline;
- Practicing for or participating in any semi-professional or professional competitive athletic contest, including officiating or coaching, for which the covered person receives any compensation or remuneration;
- Voluntary intoxication (as defined by the law of the jurisdiction in which such intoxication occurred) due to ingestion or inhalation of any narcotic, drug, poison, gas or fumes, unless prescribed or taken under the direction of a physician and taken in accordance with the prescribed dosage;
- Operating any type of vehicle while intoxicated (as defined by the law of the jurisdiction in which such intoxication occurred) by alcohol or any drug, narcotic or other intoxicant including any prescribed drug for which the covered person has been provided a written warning against operating a vehicle while taking it;
- Experimental or investigational procedures;
- Care that is not recommended and approved by a physician;
- Treatment associated with an elective or cosmetic surgery within the first 12 month(s) of the effective date;
- Treatment associated with donating an organ within the first 12 month(s) of the effective date;
- Treatment provided to a covered person either by themselves or by a medical professional that is an immediate family member, or has a business or financial affiliation with the covered person or an immediate family member;
- Treatment that was scheduled prior to the coverage effective date except when initially eligible for coverage;

Hospital Indemnity insurance is a limited benefit policy. It is not health insurance and does not satisfy the requirement of minimum essential coverage under the Affordable Care Act.
