

Voluntary Service Animal Registration

This document serves as a voluntary registration for your service animal. The purpose is to ensure that should there be an emergency on campus, our office, residence life, and physical plant is aware of your animal. We would also appreciate your permission to share with your professors that you will have an animal in class. This will allow them to prepare, as well as notify your class that an animal will be present. This is beneficial for the professor and other students in the event that either party has a life-threatening allergy and/or a fear of animals.

Student Name (please print): _____

Service Animal (type/name): _____

Housing assignment (if on campus): _____

Student Signature: _____

Date: _____
