### **II. Purpose**

Desired Program outcomes include the following:

- Integrate substantive learning with practical experience and assimilate knowledge from the study of law to the practice of law through the application of doctrine in practice, and bring back new knowledge and skills to the classroom;
- Increase knowledge of the legal profession, enhance development of ones' professional identity, deepen ones' understanding of professional responsibilities; and
- increase and enhance the ability to learn from experience during and after law school through regular feedback from judges, attorneys, and faculty supervisors and use self-evaluation and self- reflection to promote professional growth.

All parties understand this purpose and that the Student is the primary beneficiary of the Program. For Residency students, successful completion of the residency is a requirement of graduation
